### **EuroPCR 2010, the leading international Course dedicated to the cardiovascular community is back in Paris and will be held May 25-28**

<http://www.europcr.com/>

Some 12,000 professionals are convening in Paris from May 25th to 28th 2010 for the **EuroPCR Congress, the leading cardiovascular Course**. Delegates from Europe and other continents will share experience and compare the approaches and practices from their respective countries.

The Congress represents an exciting opportunity for those involved in the cardiovascular field to discuss the challenges encountered, potential solutions and consider the future, with a view to translating the latest scientific research into clinical practice.

As an outstanding place to share and to pool knowledge, practices, approaches and experiences, the EuroPCR programme is divided in three sections:

- Coronary and structural heart disease programme
- Endovascular/peripheral programme
- Nurse and technician programme

### **About EuroPCR**

EuroPCR contributes to the promotion of education and information, on existing and developing techniques in interventional cardiology. The objective of this annual course is to inform practitioners of the latest technological developments and offer practical tips and tricks that help surgeons and cardiologists make the right ethical choices for each individual patient.
